Subject: October 2018 Unassigned Bridge Inspections

The following list of agencies currently have unassigned NBI inspections in MiBRIDGE that are due during October or earlier. This message is being provided in accordance with Bridge Advisory BA-2014-03. In order not to receive subsequent monthly notifications, bridge owners should assign their inspections to an inspection team leader one month prior than the month they are due. This includes local agencies who perform inspections with internal inspection team leaders or bridge owners that perform the work themselves.

As a result of the PY2017 National Bridge Inspection Program review (NBIP), FHWA has determined that MDOT did not fully meet the requirements of 23 CFR 650.311(a). The NBIP Metric 6 and 7 Improvement Plan has been enhanced to include TSC Managers in this notification. For questions concerning this message please contact MDOT-MiBridge-Admin@michigan.gov.
